## **Call for Committee Members and Executives**

Dear Members,

In August we will be having our AGM which covers several areas that are essential for the good running of the club. On the agenda there will be a few key items that set the club up for the year ahead. These include the Financial Report, Confirmation of Memberships, Hi-Point Awards and Election of Committee Members and Executive Committee.

As a young club we have grown from strength to strength over the years and from a tiny base of 7, with no money, we now exceed 40 members and have a healthy bank account to support the shows and clinics our membership wants to run during the year.

None of this would be possible without the input of key committee members who have supported the club, prepared shows, gained sponsors, sought and maintained equipment, provided great prizes and awards, ensured we have ribbons, organised judges, accommodation, transport, obtained results, collated scores, liaised with the national bodies, and other clubs, and the myriad of other tasks required for each and every club event.

We have all enjoyed the club and its growth immensely over the years and can see real progress and development within the membership over this time. Unfortunately ensuring all these tasks are done correctly, often falls to a very few key individuals, and the pressure of this does take its toll over time. As it is, several key players will be calling it a day as far as being on the committee at the end of this term, and we look forward to other progressive individuals stepping up to have a turn at this very rewarding, but sometimes tedious aspect of running a successful club.

If you are a good organiser, like people, and want to have a great club, that runs terrific shows, with good prizes and great company and are willing to put in some extra hours to make it happen the way you want to see it develop, then we invite you to put your hat in the ring.

At the AGM all positions will be declared vacant, however some team members will re-nominate and provide support direction and continuity. If you think you've got what it takes, or would like to give it a try and learn, please give it a go and good luck for the future from both of us.

Sincerely,  
**Garry Eglinton**  
**President**  
**WAPHA**
